NATIONAL AXIAL FLOW VEGETABLE SEED EXTRACTOR

Features and Benefits:

- Used for wet as well as dry extraction of seeds from various fruits & vegetables like Tomato, Brinjal, Watermelon, Muskmelon, Cucumber etc.
- Dry extraction of Chilly Seeds from dried Chilies is also possible
- Superior Quality available in two variants one is standard Mild Steel and another one is Stainless Steel gives long corrosion life
- Water Circulation is ensured by water pump (provided with the extractor itself) during the extraction operation
- Sturdy construction with Best Quality Raw material used
- All the Components and Parts are manufactured on latest technology like CNC machines, Mig Welding which ensures parts interchangeability, enhanced product life, Precise and reliable working
- Better surface finish as a results of cleaning, short blasting, under coat and then painting with PU top coat to all the components before assembling ensuring the users can have long corrosion free product life for Mild Steel Model only, For Stainless Steel Model no protective coating is required
- Better quality and Durable components are used like Belts, Pump, Bearings, Fasteners etc.

Specifications:

Model:	NVSE –MS	NVSE - SS
Material of Construction	Mild Steel	Stainless Steel
HP and Speed of Motor	2 HP, 1400 RPM	
Water Pump	Provided	
Starter	Provided	
Sieves for different Seeds	Provided	
Seed Collection Tub	Provided
