NATIONAL GROUND NUT DIGGER

Features and Benefits:

- Used for uprooting / digging Groundnuts from soil. The digging operation is done very efficiently
- Windrower is also provided for organizing the produce in a row after digging. It is P.T.O. Driven.
- Superior Quality Cutting front blade along with cutting discs gives long wear resistance life.
- Heavy Duty construction with Best Quality Raw material used.
- All the Components and Parts are manufactured on latest technology like CNC machines, Mig Welding which ensures parts interchangeability, enhanced product life, Precise and reliable working.
- Better surface finish as a results of cleaning, short blasting, under coat and then painting with PU top coat to all the components before assembling ensuring the users can have long corrosion free product life.
- Cutting Discs are fitted with U Section & very easy to adjust.
- Blade adjustment is very easy, thanks to lever mechanism with handle.
- Better Quality and Durable components are used like chains,, Splined Sprockets, Bearings, Cutting Discs, Cutting Blades and Fasteners etc.

Specifications:

Model:	NGND
Working Width	66"
Gear Box	540 RPM (Input)
Row Making	Windrower provided
Working Depth	Adjustable and Control Wheels are provided
Earth/Root Cutting	Coulter provided
Type	Tractor Mounted
Frame	Strong and Robust
